

**E. Tab Butler**                      Director of Broadcast  
SeaChange International, Inc.

As a regional director for video server systems leader SeaChange International, Tab Butler applies the experience of nearly 30 years in network programming production and digital product management to the convergence of traditional broadcast operations with new broadband distribution opportunities.

Over the course of 18 years with NBC News, Sports and Entertainment, Tab led technical operations for “Dateline,” “NBC Nightly News,” and numerous events including Super Bowls, Olympics, and NBA finals. He personally garnered two national Emmy Awards for live production achievements.

Prior to joining SeaChange, Tab worked in video server development and sales for EMC and Tektronix –Grass Valley. He also spearheaded marketing and sales for media asset management specialist VideoBank.

Tab is an active participant in NATAS and SMPTE organizations.
