

# STORAGE VISIONS<sup>®</sup> 2007 CONFERENCE

AN ENTERTAINMENT STORAGE ALLIANCE<sup>SM</sup> EVENT

**Tom Inglefield, Broadcast & Entertainment Solutions Manager, Sun**

## **Biography**

Tom Inglefield is focused on storage solutions and architectures for the broadcast, entertainment and post-production market. He began his StorageTek career in 1982 and has developed several industry-leading solution offerings working with storage providers and application partners. Inglefield also served as the director of product development for a streaming media startup. Prior to that he was chief architect responsible for developing storage software, hardware and service products for the very large database/data warehouse market. Inglefield has extensive experience in marketing, storage technologies, business development, product development and database technologies.
