

Jeff Janukowicz, Research Manager, IDC

BIOGRAPHY

Jeff Janukowicz is a research manager in IDC's storage group where he provides insight and analysis on the solid state drive (SSD) and hard disk drive (HDD) components markets. In this role, Jeff provides expert opinion, in-depth market research, and strategic analysis on the dynamics, trends, and opportunities facing the industry. His research includes market forecasts, market share reports, and technology trends for clients, investors, suppliers, and manufacturers.

Mr. Janukowicz brings more than 14 years of experience within the technology industry to IDC, including more than eight years in storage and eleven years in the semiconductor industry. Prior to joining IDC, Jeff was responsible for strategic marketing for Agere Systems where he was in charge of market research, business planning, and marketing activities. In addition, he has held various marketing and engineering positions during his career.

Jeff Janukowicz has a bachelor's degree in Electrical Engineering from the University of Delaware and a master's degree in Management of Technology from the University of Pennsylvania's Wharton Business School and School of Engineering.
