

Doug Voigt, Distinguished Technologist, Hewlett Packard Enterprise

BIOGRAPHY

Doug Voigt is a Distinguished Technologist in the Storage Chief Technologist's office at Hewlett Packard Enterprise. He is co-chair of the SNIA NVM Programming Model and a member of the SNIA Technical Council. Doug has over 35 years of development experience in disk drives, disk arrays, storage management and non-volatile memory. He holds CS and EE degrees from Cornell University and 33 US patents, primarily in virtual arrays.
