BIOGRAPHY

Kumar K. Goswami is co-founder and CEO of Komprise which is the leader in intelligent data management across clouds and whose mission is to radically simplify data management through intelligent automation. Komprise is used by enterprises to manage data at scale and has won numerous industry awards and recognition including Gartner Cool Vendor in Storage Technologies, 2017 and CRN Tech Innovator 2017. Prior to Komprise, Kumar held executive roles at both large companies and startups including Co-Founder and CEO of Kaviza (Acquired by Citrix), VP Products at Citrix, Director of Cloud Computing Lab at HP Labs, and COO of Kovair. Kumar holds a Ph.D. degree in computer science from the University of Illinois, Urbana-Champaign.
